

TERMS OF REFERENCE FOR CONSTRUCTION OF THE FRENCH PAVILLION DURING WUF10 ABU DHABI – 18th September 2019

About the PFVT

Launched in June 2011, the French Partnership for Cities and Territories (PFVT) has been created as a platform of exchange between French stakeholders working about urban planning at international level to prepare and contribute to the world urban forums and the urban agendas. It is shaped as a multi-actors partnership chaired by Hubert Julien-Laferrière, member of the French Parliament and former vice-president in charge of international affairs of Lyon Metropolis, and supported by several ministries; of Europe and Foreign Affairs, of Territorial Cohesion, of Ecologic and Solidary Transition and of Culture, and by the members of the partnership. ,

The PFVT gathers around two hundreds organizations representing the diversity of the French urban expertise: State and public institutions, local authorities and associations of elected officials, companies and their networks, federations and professionals of urban development, research and training organizations, civil society organizations).

The PFVT contributes to the coherence of the French response to requests expressed by its partners by building a French shared vision based on knowledge accumulation, acquired through exchanges of experiences between its members. It enables the adoption of a common statement of French experts carried in international debates on urban issues especially during the world urban forums.

Since October 2018, the French Federation of Urban Planning Agencies (FNAU) has in charge the Technical Secretariat of the PFVT. Its main mission implies the animation of the network to produce common contributions, but also to coordinate the participation of French experts in international debates and events especially WUF10 and to promote their knowledge regarding sustainable urban development.

In preparation of the World Urban Forum, in Abu Dhabi in February 2020, as the Technical Secretariat of the PFVT, the Fnau is in charge, for the French ministries of the preparation of the realization French pavilion at the World Urban Forum.

Regarding the coordination by ADNEC of all the exhibition hall and realization of pavilions the following terms of reference and specifications concerns the French pavilion conception, realization and furniture for the whole duration of the WUF10 in Abu Dhabi.

The French Ministry of Europe and Foreign Affairs will be in charge of the works management.

The French federation of urban planning agencies, as the technical secretariat of the PFVT, will be in charge of the technical coordination in link with Business France. The Fnau, with an eventual dedicated technical assistance in UAE, will be in charge for the French Ministry of the monitoring of the project with ADNEC

- The technical coordination with the conception team
- The technical coordination with the operational team in Abu Dhabi
- The monitoring of the assembly and the receipt of the pavilion in Abu Dhabi
